

Key Elements

- 1 Increase signage and street linemarking to highlight area is a shared use zone for pedestrians and vehicles
- 2 Increase signage to indicate: location of closest toilets in existing community centre, path of the Baytrail and directions to Pebble beach
- 3 Resurface and linemark existing carpark to increase efficiency, install low barriers to restrict vehicles driving onto surrounding vegetation
- 4 New pedestrian footpath connecting existing cliff top footpath to Marina lifts
- 5 Provide raised surface carparking spaces flush with proposed timber lookout deck for disabled access
- 6 New timber 'look out deck' to aid blocking access onto Marina rockwalls and to provide opportunities for interpretive signage, seating and drinking fountain with dog bowl at ground level.
- 7 Existing lookout to be refurbished with new interpretive signage

Legend

-  New carpark area
-  Gardenbed areas incorporating existing plantings
-  Pedestrian crossing through carpark linking cliff top walk to Marina lifts/stairwell
-  Timber look out deck with seating

Key Elements

- 1 Existing commercial premises
- 2 Signalled Pedestrian Crossing
- 3 Community project 'Buckley's Rest' Disabled access look out and picnic space
- 4 Existing Toilet Block to be reviewed during 2014/2015 financial year
- 5 Existing playground equipment and 'Dolphin' sculpture by Anton McMurray (2003)
- 6 Existing BBQ Shelter to be retained and 'Rock Hopper' Sculpture by Anton McMurray (2003)
- 7 Proposed additional BBQ Shelter, picnic tables and increased recreational public open space
- 8 Proposed angled parking area. Existing carpark reduced in order to reclaim usable public open space and create better visual / physical linkages between existing spaces within the 'Community Hub' zone . Carpark loss 15 spaces
- 9 Proposed location for 'Fitness Station' with outdoor exercise equipment
- 10 Proposed Boardwalk with lookout decks at beach access points
- 11 Existing carved boulders to be retained and gardenbeds to be increased
- 12 Existing carpark to be linemarked, a paved central road installed and extended. Carpark gain 8 spaces.
- 13 Existing Lawns areas to be retained and refurbished

- 14 Existing Community Noticeboard to be retained and incorporated into boardwalk lookout deck
- 15 Existing carpark to be linemarked, a paved central road installed and extended. Carpark gain 6 spaces.
- 16 Relocate car park entry south of existing location further away from the Marina underpass.
- 17 Close existing carpark entry and consider relocating existing bus stop to this location
- 18 Reserve at least four carpark spaces for use by Coast Guard
- 19 Existing Yacht Club/ Coast Guard/ Community Centre
- 20 Potential future layout of Marine Drive Linemarking including bicycle lanes and parallel parking. Council to continue working with Vicroads on this project.

Legend

-  Refurbished Lawn areas
-  Gardenbed areas incorporating existing plantings
-  Proposed idigenous canopy trees to be planted inline with property boundaries on eastern side of Marine Drive to avoid blocking viewlines
-  Existing trees to be retained
-  Timber decking boardwalk with look out decks at existing beach access points

Key Elements

- 1 Existing commercial premises
- 2 Signalled Pedestrian Crossing
- 3 Community project 'Buckley's Rest' Disabled access look out and picnic space
- 4 Existing Toilet Block to be reviewed during public toilet strategy refurbishment program
- 5 Existing 'Dolphin' sculpture by Anton McMurray (2003)
- 6 Existing playground equipment with increased seating
- 7 Existing BBQ Shelter to be retained with furniture to be reviewed
- 8 Increased open space, picnic tables and bike parking stands near base of existing and 'Rock Hopper' Sculpture by Anton McMurray (2003)
- 9 Proposed additional BBQ Shelter, picnic tables and increased open public space

- 10 Increased recreational public open lawn area
- 11 Proposed location for 'Fitness Station' with outdoor exercise equipment
- 12 New dune planting area. Area to be mounded and planted out with hardy indigenous dune species to aid in wind buffering and reduction of sea spray entering reserve.
- 13 New vehicle access lane into reserve parking area
- 14 Proposed angled parking area. Existing carpark reduced in order to reclaim usable public open space and create better visual / physical linkages between existing spaces within the 'Community Hub' zone . Carpark loss 15 spaces
- 15 New vehicle exit lane from reserve parking area
- 16 Potential future layout of Marine Drive Linemarking including bicycle lanes and parallel parking. Council to continue working with Vicroads on this project.

Legend

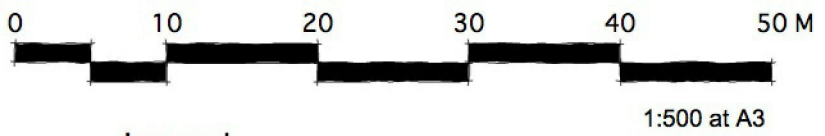

- Refurbished Lawn areas
- Gardenbed areas incorporating existing plantings
- Proposed indigenous canopy trees to be planted inline with property boundaries on eastern side of Marine Drive to avoid blocking viewlines
- Timber decking boardwalk with look out decks at beach access point

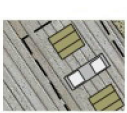

Key Elements

- 1 Existing toilet block to be retained
- 2 New gardenbed outstands - subject to Vicroads approval
- 3 Existing playground to be retained and footpath installed around edge to improve accessibility. Investigate fencing between playground and road reserve to increase safety
- 4 New Picnic tables on gravel paving with canopy trees
- 5 Timber lookout deck with seating, outdoor shower, interpretive signage and beach access
- 6 Relocate carparking to provide area for new shade structure with BBQs and Picnic facilities on timber decking
- 7 New carparking to maximise usable public open space
- 8 New swale to collect and filter surface water runoff from carpark

- 9 New gravel area for fitness equipment
- 10 Possible new vehicle exit/entry into reserve carpark
- 11 Revegetation of Dunns Creek embankments to help stabilise and prevent erosion
- 12 Potential future layout of Marine Drive Linemarking including bicycle lanes and parallel parking. Council to continue working with Vicroads on this project.
- 13 Existing Boat Shed

Legend

-  Refurbished Lawn areas
-  Gardenbed areas incorporating existing plantings
-  Compacted crushed Rock
-  Picnic facilities on timber decking

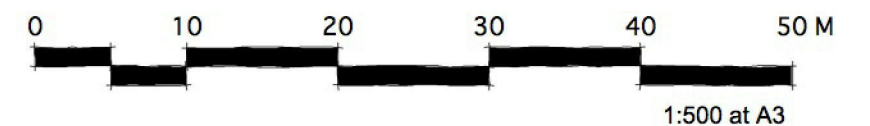

Key Elements

- 1 Existing carpark entrance to be closed and relocated north away from corner of Marine Drive and Nepean Highway
- 2 New formalised vehicle entry into carpark area
- 3 Resurface and linemark existing carpark to increase efficiency, install low barriers to restrict vehicles driving onto surrounding vegetation, incorporate WSUD rain gardens where appropriate to treat surface runoff
- 4 Redesign layout of 'Baytrail' pathway through this area and incorporate new picnic facilities on existing cleared ground
- 5 Incorporate pedestrian crossing. Install signage to highlight the 'Baytrail' location and the potential for cyclists to be using the shared pathway
- 6 Resurface existing gravel road within reserve
- 7 Install controlled beach access ramp for Council use only with locked slip rail (Beach cleaner access). Beach ramp could be constructed of 'Flexmat' concrete block mattress system, which does not require footings and will work with the dynamic nature of the sand dune

- 8 Existing lawn area to be enclosed and lock with slip rail. area to be used for Overflow parking during peak season
- 9 Potential future layout of Marine Drive Linemarking including bicycle lanes and parallel parking. Council to continue advocacy and working with Vicroads on this project.

Legend

-  Existing canopy trees and shrubs
-  Gardenbed areas incorporating existing plantings
-  Compacted crushed rock footpath and picnic area
