2.6 Public Question Time

QUESTIONS WITH NOTICE

Transport to the Peninsula

Helen Gunn, a resident of Ashburton, asked the following question:

As my partner resides in Mount Martha, with reflection we often discuss environment changes. During a discussion about commuting, we asked ourselves "Why doesn't the state of Victoria support more railway journeys from Frankston, through Mornington to Flinders? This will bring more people to these areas to enjoy and improve wellbeing towards the ocean. Less cars on the road, people can enjoy journeys and days out on a train.

Council advised that there is not currently a railway track that runs from Mornington to Flinders. Bus services currently operate (791 and 782) from Frankston via Hastings to Flinders. With 82% of the Peninsula not serviced by public transport, the Shire has long advocated to the Victorian Government, on behalf of the community, that there is a need for better public transport.

Shire advocacy has included rail electrification from Frankston to Hastings, given the potential for growth, employment, housing and community amenity, as well as increased Frankston to Hastings services on the Stony Point line. However, significant funding is required from the Australian and Victorian governments for electrification to progress.

The previous Better Buses Shire campaign successfully secured funding to deliver a cross-Peninsula bus service from Hastings to Mornington, which is expected to become operational mid-2026. This new service will improve transport options and connect residents, businesses and visitors across the Peninsula, reducing reliance on travelling through Frankston.

The Shire continues to advocate for service reviews and better integration of public transport, including more reliable, faster and frequent express bus routes connecting our major towns to Frankston train station and peak period frequencies of 15 minutes.

More information on our transport advocacy can be found on our website.

Mayoral Duties

Anja Ottensmeyer, a resident of Mount Martha asked the following question:

Could Council please explain why the position of Mayor has not been formally vacated and stepped back to the role of Councillor during this period of leave? In

particular, what governance considerations led to the decision for the Mayor to retain the title while effectively stepping back from the role?

Council advised that section 20 of the *Local Government Act 2020* sets out the circumstances in which the office of Mayor becomes vacant. These include the day the next Mayor is elected, the resignation of the Mayor, where the Mayor ceases to hold office as a Councillor, where the Mayor's office as a Councillor is suspended or where the Mayor becomes ineligible to hold the office of Mayor following a decision of an Arbiter or a Councillor Conduct Panel.

Public Question Guidelines

Anja has asked another question:

Council recently introduced new public question guidelines limiting questions allowing the Mayor, Chair or CEO to refuse or summarise questions. What was the governance rationale for these changes, and how will Council ensure they do not restrict legitimate public scrutiny?

Council advised that the provisions relating to the number of questions that may be submitted, and the ability for the Mayor/Chair or CEO to refuse or summarise questions, have been in place for many years and were included in Council's guidelines prior to 2010.

The only substantive change previously made occurred in 2021 during the COVID-19 pandemic, when the requirement for members of the public to be physically present at the Council Meeting to ask their question was removed and the ability to submit questions with notice was implemented ensuring a considered response could be provided at the Council Meeting for these questions.

Public Repairing Roads

Andrew Race, a resident of Tootgarook asked the following question:

A Liberal party social media video shows MP Jess Wilson and newly converted Liberal candidate Mr Anthony Marsh filling a pothole on a public roads with live traffic.

Was this a council road, and what is councils position on members of the public repairing roads?

Council advised based on our review of the location shown in the video, the road is not managed by Council. It is understood to be a State managed road, which falls under the responsibility of the Victorian State Government rather than Mornington Peninsula Shire Council.

In relation to the repair activity shown, it appears the pothole was filled with the assistance and under the supervision of a road crew that is not known to be associated with Council or our road maintenance contractor, Fulton Hogan.

Council does not support members of the public undertaking repair works on live public roads. Road maintenance activities are typically carried out by trained personnel under appropriate traffic management and safety controls to ensure the safety of workers and road users.

If residents identify road hazards such as potholes on Council managed roads, they are encouraged to report them through the Shire's customer service channels so they can be inspected and addressed by authorised crews in accordance with the Road Management Plan.

For roads managed by the State Government, these matters should be referred to VicRoads (Department of Transport and Planning), which is the relevant authority responsible for their maintenance.

Media Engagement

Stephen Tweedly, a resident of Rosebud asked the following question:

On the back of council's previous response regarding its decision not to engage with STPL News due to Australian Press Council or ACMA oversight requirements, has council or any councillor provided interviews, briefings or information to other media organisations not subject to those same oversight bodies?

Council advised our media team regularly provides accurate and up-to-date information to a range of media outlets to ensure the community is informed about Council matters.

In the case referred to, Council's decision related to concerns about editorial practices and the absence of an external oversight or dispute resolution mechanism through bodies such as the Australian Press Council or ACMA. Without such a mechanism, there is limited ability to resolve concerns around matters such as fairness, accuracy, attribution or the clear distinction between news and opinion.

Council has indicated it is willing to respond to questions from this publisher should they commit to operating in line with the same principles that guide recognised industry standards.

Councillor Allowance

Stephen, has asked another question:

Is Cr Anthony Marsh still receiving his Councillor allowance while on leave, and if not, is that allowance currently being paid to Acting Mayor Cr Paul Pingiaro during this period?

Council advised Councillor Anthony Marsh is not receiving his Councillor allowance during this period of leave. The Deputy Mayor, while performing the role of Acting Mayor, is receiving the equivalent of the Mayoral allowance

Communication with the Public

Helen Lord, a resident of Mount Eliza asked the following question:

Profiles for Councillors prior to their election refer to "Listening to ratepayers, transparency, accountability and integrity". Why has MPS Management not held public consultation meetings or used comprehensive notifications to inform thousands of residential and commercial ratepayers of proposed rate payment changes which could detrimentally affect these ratepayers' financial forecasting.

Council advised feedback has been sought on the rating strategy options through a number of sources including online portal, social media campaigns, Shire wide publications, media release and the opportunity for submitters to speak to their submission with Councillors.

This engagement led to 489 online surveys and submissions, over 220 submissions in writing and two petitions.

This invaluable feedback then allowed officers to recommend three of the four options which had greater than 60% support and not recommend removing the pay in full option which had greater than 60% against.

QUESTIONS WITHOUT NOTICE

The following questions were received without notice. Responses will be provided to submitters and published on the Shire website.

Feedback for Western Port Bay

Dale Stohr, a resident of Crib Point asked the following question:

Will Mornington Peninsula Shire be providing stakeholder feedback on the Port of Hastings Corporation's 'Draft 2055 Port Development Strategy' by the closing date on 31 March 2026 and include support for a Strategic Framework for the future of Western Port Bay?

Homelessness and affordable housing crisis

Fred Crump, a resident of Hastings asked the following question:

Since Federation we have had two wars, Prime Ministers, Deputy Prime Ministers, Lord Mayors, Deputy Lord Mayors, Premiers, Mayors, etc. How come nobody from the said mentioned and many more others have not solved the homeless, affordable housing crisis?

The Deputy Mayor advised that Council continues to strongly advocate for improved responses to homelessness across the Peninsula.

Yesterday provided a valuable opportunity for advocacy, with Councillors meeting with departmental officials at the Southern Peninsula Crisis Centre. These discussions were constructive and are considered a positive step toward addressing homelessness and broader community crisis issues, which consistently remain among the top priorities for our community.

Council is actively listening and responding to these concerns. Through the AAA Housing Committee, long-term leases have been secured on nine parcels of Council land to support housing outcomes.

In addition, a community forum was recently held in conjunction with the *Walk In Her Shoes* exhibition, which was attended by approximately 450 people. Council extends its sincere thanks to all community members who attended and advocated on this important issue. The forum provided a valuable platform for community voices and enabled direct engagement with the Minister for Housing and Building, Minister Shing. As a result, the Minister has committed to further discussions with Council, supporting continued advocacy at the State Government level.

Council is also seeking approximately \$650,000 in funding to support three community support centres, which are undertaking significant work in assisting vulnerable members of the community. Furthermore, four Council-owned sites have been identified and are ready for development, which could deliver 22 crisis and transitional housing units for women over 55.

Council is currently contributing approximately \$1.2 million toward initiatives in this space and remains committed to working in partnership with all levels of government to deliver meaningful outcomes for the community.
